The selection process

The selection committee is made up of members of UWC Slovenia mandated by the UWC organization. The selection process takes place in three stages:

- **First stage: written application**; candidates are selected on the basis of their written applications and shortlisted for the second round of selections
- **Second stage: interview (online) with an alumnus of the UWC schools**. Candidates are selected on the basis of the interviews and shortlisted for the third round of selections

- **Third stage: interview with the selections committee;** the committee will rank the candidates according to the selection criteria (exact location to be announced after the second round of selections)*

*We reserve the right to an additional round of interviews if necessary

Nominations and allocation of scholarships

Selected candidates will be allocated places based on their ranking in the interviews and their preferences.

The places with the highest scholarship opportunities (or the lowest fees) are generally offered to economically weaker applicants. **Please note that the financial situation of the family is NOT a selection criterion.**

If a place is refused, it is offered to the next ranked candidate.

After the selection process, UWC Slovenia will nominate the selected candidate to the selected college for confirmation. The colleges usually accept the nomination but they reserve the right to the final decision; this means that the candidate is awarded a spot after the confirmation from the college.

If we reach the conclusion that there is no suitable candidate for a given spot among the applicants, we reserve the right to keep the place unawarded.

Applicants who have not been successful will be informed by email after the selection process has been completed.
